

Functional Behavior Assessment (FBA)

* A request for an exposure behavioral assessment must include the following:

1. Description of the behavior(s) that pose significant risk of harm to the individual or others; and
2. Description of how the plan is to expose the individual to social or environment stimuli associated with the dangerous behavior; and
3. Description of how the assessment will be conducted in a setting conducive to the safety of the individual and other individuals who may be present, including but not limited to physician, other qualified health care professional, or technician.

Behavioral Intervention Services (ABA)

Adaptive Behavior Treatment with Protocol Modification

(0368 & 0369T)

- Done by QHCP or LaBA with direct oversight
- This is the bulk of behavioral services when no RBT is involved
- Ensure implementation train & modeling with individual for significant persons, monitor implementation and interpret data, modify strategies, write progress reports and plan updates
- Implement 1:1 skill training and reactive strategies with consultation for significant persons
- Provide supervision for LaBA or RBT
- 30 minute unit

Adaptive Behavior Treatment by Protocol by Technician

(0364 & 0365T)

- Done by RBT or LaBA with 10% of hours including on site supervision by LBA
- Implement intervention strategies and collect data
- Model for significant persons
- Document service data for dates provided
- 30 minute unit

Family Behavior Treatment Guidance

(0370T)

- Done by QHCP or LaBA
- Review and interpret assessment findings and intervention data
- Review forms and intervention plan strategies
- Model and practice intervention strategy implementation by significant persons
- Targeted individual not present due to disruption, discussion troubling to person or other clinically relevant reason
- 60 minute unit

Additional Behavioral Intervention Services

Behavior Treatment Social Skills Group (0370T)

- QHCP or LaBA works with group of individuals (up to 9)
- All with social skills/communication needs
- Can utilize curriculum/model and/or be activity based
- 90 minute unit

Exposure Adaptive Behavior Treatment with Protocol Modification (0373 & 0374T)

- LBA implements or directs RBT/LaBA to implement and reviews and analyzes data after each session
- Supervised by physician/qualified health professional-psychologist, BCBA/AS, etc., with two or more technicians with individual for safe treatment
- Exposure of individual to specific environmental conditions and treatments that are likely to exacerbate the behaviors /likelihood of harm (eg. aversive stimuli, inappropriate sexual reaction, etc.)
- Data collection by technicians
- Refines therapy using single-case designs
- Modifies and/or replaces treatment regimen to meet individual's needs in reaching treatment goals and generalizing skills
- Service provided in structured, safe environment
- Precautions may include environmental modifications and/or protective equipment
- 1st of date is 60 unit, add'l units of date are 30 min
